Assessor Comments

An outstanding opportunity to secure 22 very well-bred Angus steers from the Tabletop commercial herd. These steers are 9–10 months of age and represent the quality and consistency that comes from a strong focus on Angus genetics. With excellent breeding behind them, these cattle offer the ideal combination of doing ability, structure, temperament and performance. Extremely quiet and well-handled, these steers are the type that make management easy and will suit a range of production systems. They have received all recommended animal health treatments and are ready to continue on and perform. Backed by generations of quality breeding, these are a genuine line of Angus steers with plenty of potential and will reward any buyer given the opportunity. Note- There is a few steers in there with old pink eye scarring however we drafted anything out that was not deemed suited for feedlots.
