Relatively well behaved for cattle which were only recently yarded for the first time in their lives. These cattle walked up to us in paddock out of curiosity, but moved away again not long thereafter. Will have daily handling in 10 days from assessment to auction and should gain further trust in people within this timeframe.

| Assessor Comments | Good shaped Angus x Santa/Angus heifer calves. I am genuinely impressed by the butt shape on most of this group. Their temperament is reasonable too given their little amount of handling. With further handling, I believe these nuggety heifers will grow out to very good vealer mums or shape into handy trade cattle. |
