Assessor Comments	Annual Production Sale of the “Boggy Creek Station” calves at Glenburn. These are the heavier end of the Steer Calves. They are in fresh condition, well grown for their age and displaying plenty of bone and muscle. Calves were excellent to handle and are ready to grow on for anyone in the position to feed them. Drafting into a weight range off the scales has produced a nice, even line to make marketing down the track easier. There is 1 steer with slight blue in the eye from pink eye treatment. Not detrimental at all. Overall health of these calves is excellent. These cattle are Renowned performing cattle and would suit any feedlot operation and/or backgrounding and fattening. They carry our highest recommendation.
