The temperament is a real feature of the Boggy Creek Station Calves and could not really be faulted. The videos demonstrate how quiet they are. Virtually had to be hunted out the gate.

Assessor Comments	Annual Production Sale of the “Boggy Creek Station” calves at Glenburn. These are the RED COLOR of the Steer Calves. They are in fresh condition, well grown for their age and displaying plenty of bone and muscle. Calves were excellent to handle and are ready to grow on for anyone in the position to feed them. Drafting into a weight range off the scales has produced a nice, even line to make marketing down the track easier. Overall health of these calves is excellent. These cattle are Renowned performing cattle and would suit any feedlot operation and/or backgrounding and fattening.They carry our highest recommendation.
