Steers are generally good to handle with only three head displaying much run. Steers have been well handled since weaning and have settled nicely. Approximately 3 noted as stirry, but in the main cattle were calm. Approx 4 head were noted to be quick into crush and were keen to move out.

Assessor Comments	Top quality draft of vendor bred EU Poll Hereford steers. The Morgan cattle are impeccably bred, renowned performance cattle, with no expense spared on genetics sourced from Morganvale, Days & Allendale with focus on above average growth and positive fats. Steers present in principally healthy, store condition, with shape and bone. Ideally presented steers, nicely marked and predominantly deep cherry coloured, a terrific chance to acquire very well bred Poll Hereford steers with the breeding and capacity to finish on grain or grass to heavy export weights. Bred to perform.
