Assessor Comments	122 EU accredited Angus weaner steers weighed into a 35kg weight bracket. These calves were weaned on 27th March. They show plenty of frame & stretch whilst carrying no excess condition! High end genetics have been sourced from Rennylea, Pathfinder & Barwidgee with a strong emphasis being placed on temperament, growth & doing ability. Vendor regularly spends $20-25K on bulls. The Mooramook steers are often sought after by repeat purchasers & have been described as "Elite performers". Recent health treatments at include; Levabmax drench & vaccinated with 5 in 1, Vitamin ADE & Multi-min. With an exceptional genetic profile, a sound animal health program, a big weaning & EU accredited, these steers tick all the boxes & come with my highest recommendation. There is a handful of steers in this mob showing some old pink eye scarring, all steers will be carefully checked at delivery & will be retreated if required.** Please note that vendor has another 150 steers also in this sale**
