Assessor Comments	AS & KM Cain, 'Oakbank' Heywood Vic, will offer a line of 74 EU accredited Angus & Angus X Steers 9 to 10 months, GAR & SAV blood, weaned, Antibiotic Free. Steers will present in healthy store to forward condition, they were all weaned on the 4/3, straight on to Mckenzie Ag weaner mix and haven't looked back, they were all weighed from 226 - 362kg to ave 310kg (full) at assessment. Traditionally they are all grown out into heavy feeder weights and sold later in the year, they are only being offered due to vendor needing to reduce numbers. They would be ideal now to background out on grass and either finish on the grass later on, or they will transition into the feedlot environment having been grain trained on feeders for 10 weeks already. Please note at weaning a few were treated for pink eye, it has cleared up with a few left with scarring to the eyes, it appears not to be affecting the steers.
