These Vendor bred steers display good weight for age and have a proven history for strong performance on both Grass & Grain. An ideal opportunity to secure a genuine line of EU Accredited cattle. Further to the vendor comments they would like to mention these particular steers are the product of many years of selecting high end commercial Brahman genetics, Previous steers of the same breeding have achieved 1.8-2.5kg per day over 100 days on grain or consistently dressing out at 320-380kg on grass before 3 years of age. Vendor has Pre Treated the steers on 18/7 to assist the purchaser if required and a Pre Treatment form will be provided on delivery.
