| Assessor Comments      | 5 Decks of predominately Droughtmaster Cross Heifers weighing full 280-320kg to average 306kg. These heifers have been purchased within the last 6 months as lighter weight weaners from local and near local areas. They have been through a weaner program so they are notably good to muster and work throughout the yards. These heifers have all been preg tested empty by the vendor, the vendor has pre treated for ticks with Barricade S plunge dip and will pay any of the costs associated with clearing the dip. |                                                              |                                     |
