	Slightly Stirry: 4 head	Slightly Stirry: 7 head	Paddock												
	Stirry: 1 head	Stirry: 1 head													
	Cattle were generally good to handle throughout the yards and crush. Eight head became slightly agitated in the crush with one heifer highly agitated. All settled when back in the yards together. One heifer did not like being isolated but the rest were quiet when being photographed but would tend to move quickly as a mob when being walked around the yards.														
Handled With	Bikes , Dogs , Vehicles														
Assessor Comments	A line of good to very good quality feeder heifers. With medium to large frame heifers these heifers suit to take directly onto feed for a range of domestic slaughter markets. A portion would suit a softer style slaughter market while the balance are a flatback crossbred heifer - see photos and videos. A mix of some vendor bred and mostly purchased heifers that have been confined and fed a barley based backgrounding mix since 20/06/2026 (past 30 days). When they were bought into the pens on the 20/06/2026 they were scanned as NDP and were mouthed. They were mostly milk teeth (46) and 11 x 2 teeth 30 days ago. They have a LWR of 332kg - 425 kg full weight and are moving ahead nicely and should go onto a full feedlot ration mix very quickly. Note 2 decks of softer crossbred heifers this sale and another 2 decks located approx 20km away.														
Assessor	Andrew Wilkie (Level 1 Accredited) Phone: 0427 011 608														
Delivery Period	27/07/2026 to 31/07/2026 (5 days)														
Delivery Point	"Aqualoo" yards. 2448 Dilqui Rd, St George. Located 65 km north west of St George. ST GEORGE QLD 4487 Lat: -28.0368451 / Lng: 148.5801042
