Assessor Comments			Paddock
	Cattle were generally good to handle throughout the yards and crush. Eight head became slightly agitated in the crush. All settled when back in the yards together. All remained quiet when being photographed.		
Assessor	Bikes , Dogs , Vehicles		
Assessor Comments	A line of good to very good quality feeder heifers. With medium to large frame heifers these heifers suit to take directly onto feed for a range of slaughter markets. This line was drafted to suit markets requiring more british bred content. A mix of some vendor bred and mostly purchased heifers that have been confined and fed a barley based backgrounding mix since 20/06/2026 (past 30 days). When they were bought into the pens on the 20/06/2026 they were scanned as NDP and were mouthed. They were a mix of 33 milks and 22 x 2tooths 30 days ago. They have a LWR of 345kg - 439 kg full weight and are moving ahead nicely and should go onto a full feedlot ration mix very quickly. Note 2 decks of high content heifers this sale and another 2 decks located approx 20km away.
