Assessor Comments	A very good line of principally Angus Cross Heifers. Heifers preg tested not detectable prior to assessment by GDVS. Heifers are well grown and show good bone and type. Heifers are starting to do well now with green feed coming up after June rain. Odd heifer showing signs of lice starting. Purchased heifers mainly from Tamworth, Coonamble district. Heifers very suitable to take through to trade/export feeder weights. Heifers should continue to do very well on good feed and have good compensatory weight gain. Note vendor has another 2 lots this sale - 119 Heifers, 112 Steers.
