The stirry steers were in the race & crush & did leave the crush quickly. All but 1 steer did settle once in the mob. These steers were sensative to movement & had a large flight zone at assessment. There is a wild dog problem in the area & these cattle are very nervous which could be attributed to this. Vendor is going to leave the cattle in the yards & rehandle until to delivery which should see the steers more settled at delivery. Would recommend leaving in yards to settle once delivered.

Handled With: Bikes , Vehicles

Notable Traits

	Traits
22 Head	Lice
2 Head	Ring worm scarrs head & neck, see photo
1 Head	Warts head & neck

Assessor Comments: Buyers a line of predominately Angus steers that would suit taking through to trade or heavy feeder weights. The 1 Angus x steer will not suit a Angus feeder market see photos. These steers have good frame in store condition with compensatory weight gain. The small amount of handling doing the photos & videos did see the steers start to settle, see videos to make own judgement. Buyer please ensure you read the temperament comments any questions contact the assessor. The vendor has 25 heifers same sale.
