Assessor Comments	Buyers here is an excellent opportunity to purchase a light 2 decks of very well-bred heifers that are on the go. The vendor has spared no expense on bull selection, health treatments or preparation to market these surplus Angus x Angus heifers. These heifers stand on great bone and structure and have great weight for age. These heifers are marching along on a forward plane of nutrition and would suit a winter crop job, finish on feed for a domestic kill program or even to join to the bull of your choice. Please note one heifer which we can identify is not suitable for joining due to her anatomy location. At assessment these heifers weighed 304kg - 495kg Full to average 381kg. They are on good feed and on the do. Please note these heifers are to be SOLD C/KG on the nearest weighbridge FULL LESS 5%. Please note 3 heifers had some white near the udder, 3 heifers had a slight blue eye. 1 heifer had a blue dot on both eyes. The vendor is happy to remove the 2 dot heifer if requested. The vendor also has the brothers for sale.
