Assessor Comments	Buyers here is an excellent opportunity to purchase a light 2 decks of very well-bred steers that are on the go. The vendor has spared no expense on bull selection, health treatments or preparation to market these surplus Angus x Angus steers. These steers stand on great bone and structure and have great weight for age. These steers are marching along on a forward plane of nutrition and would suit a winter crop job, finish on feed for a domestic kill program or even carry through to a heavy bullock program. At assessment these steers weighed 321kg - 476kg Full to average 386kg. They are on good feed and on the do. Please note these heifers are to be SOLD C/KG on the nearest weighbridge FULL LESS 5%. Please note 3 steers had a slight blue eye, and one steers with an injection lump on its neck. Please look at photos for further information. The vendor also has the sisters for sale.
