	Generally a very good run of heifers to handle. These calves are well educated in the yards and only the very odd heifer became slightly stirry when pressure was applied, but settled quickly when back with the mob.

Assessor Comments	A nice line of 34 June/July 2025 drop Angus Heifers offered by the Bunting Family. This is the annual sale of their excess heifer calves and are being offered in forward/store condition. Approximately 40% of these heifers have been sired by the AI sire Millah Murrah Quartz Q29 with the balance by top quality Bannaby Angus bulls, out of a high class cow herd. These heifers show wonderful weight for age and have done extremely well over the past few weeks on crop. They would grow into terrific cows, with lots of bone and style. They also present with all the frame and shape required to eventually reach domestic and export slaughter weights. A great opportunity here to put away some good heifers.
