Stirry: 9 head

Heifers displayed quite a lot of run in big yards and going through gate ways due to lack of education. However when handled in small yards, race and crush they were good to handle. Given time and education these heifers would slow down and if handled properly would quieten down nicely. None of these heifers ever became aggressive.

Bikes , Vehicles

Assessor Comments

Buyers on offer is a very neat small line of top quality Angus heifers all weighed 274-357Kg at assessment. These would be an ideal small line of heifers to add to someone's herd or be taken on as backgrounders to be taken into feeder or kill weights. The initial plan with these heifers was to retain them as breeders however due to a change in vendors plans they are now being offered for sale. These heifers since purchasing have averaged 1.2Kg/day and are on the do. They display ideal softness and frame with excellent type. Potential purchasers please note that vendors property is only 20 mins from Wagga Saleyards and freight to sale yards can be arranged by us at the purchasers cost to top up trucks. Please contact with any questions.
