	Quiet: 122 head Slightly Stirry: 3 head	Quiet: 115 head Slightly Stirry: 10 head	Temperament not assessed in Paddock
These weaners have had ample handling and human interaction due to being supplementary fed prior to going onto crop. In a very good set up these weaners were a pleasure to assess.			
Handled With	Bikes , Dogs		

Notable Traits	Traits
	8 Head Eye blemish - not detrimental to vision or performance. Photos of worst affected.
	3 Head Light rub marks near neck/hind.
	4 Head Minor ring worm.
	3 Head White on belly.

Assessor Comments	Offering a b-double load of Angus steers weighing 262-335kg at assessment. These steers are acclimatised with all treatments up to date and are stacking the weight on. They are grazing cereal crops that have plenty of quality food on offer due to the soft start to winter. They have been bunk trained in containment at purchasing and are pleasant to work. They were purchased in to graze winter crops and are being sold to make room for lighter weaners in preparation to lock crops up. This line represents the tops of the purchased steers off Thugga. They have had 2 x 5 in 1 and 2 x MH+IBR as well as a recent drench and are recording an average daily weight gain around 1.5kg with fat cover starting to increase. Ideal to background for the strong feeder or kill markets with all of the preparation and expense behind them. Quality Angus steers that are settled in their group and will remain as one until delivery.
