	2 Head PINK EYE SCARING					

Assessor Comments	An outstanding opportunity to secure a quality line of vendor-bred Angus weaner steers from the well-regarded Llandalo breeding program at Cudgewa. These 30 selected Angus steers averaged 368 at assessment and present as an exceptionally even, healthy and well-grown line. Yard weaned and handled with care, they display excellent bone, depth of body and structural correctness, reflecting the strength of the Llandalo and RAFF Angus bloodlines. The vendors have a strong focus on breeding functional, high-performance cattle that consistently deliver growth, carcase quality and yield. These steers are well coated, healthy and have all the attributes buyers look for in quality replacement feeder or backgrounding cattle. With continued access to good pasture, they are expected to develop into large-framed steers, making them equally suited to grass-fed ox production, domestic trade markets or longer-term finishing programs. A genuine quality offering from a respected Upper Murray breeding operation that is sure to attract strong buyer interest. Buy with confidence – quality genetics, sound management and proven performance.
