	Very quiet young heifers. All bucket reared, extensively handled. Very quiet to deal with in the yards, push them around by hand. All led up the race well, bar the odd steer that turned around in the race. Quiet to walk amongst in the holding paddock for photos. Quiet, well weaned calves that could be handled by a stock person of any experience.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Nice line of young, well started heifers. All bred by the vendor, bucket reared for an extended period, weaned on to pellets early, then started on a grain ration. Would happily continue on a grain ration, or steer them back on to the pasture. A perfect line of small investment cattle, with little appetites to take into the Spring.
