Assessor Comments	On offer is a one mark run of 15/16 month old feeder heifers. These heifers were bought in last October and grown out on grass. Well bred heifers sourced from a feature sale at Mortlake, these heifers are bred from a Rossander Blood Angus herd. They are well grown for their age and have the frame and capacity to keep growing out on grass or grain. They are performing well with the mob averaging 1.1 kg gain a day off grass in winter. These heifers are also classy enough to be future breeders if desired. Please note there is a heifer with a sunken eye that can be removed at purchasers request, there is a photo attached.
