These heifers were really gentle to draft. They penned up well and flowed up the race well. The few that were not settled in the crush settled quickly when back with the mob. They were a lovely quiet mob to walk through and take photos with no sign of panic or flight.

Handled With	Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments	A nice line of light weight soft Xbred heifers. They are a mix of breeds and would suit the feeder market or would grow out to be future breeders. These heifers have the genetics to perform well, and past sales show they do. These heifers are just the lightweight ones out of this year's weaner drop. They come from a cow herd that is preg tested annually and has a strong focus on fertility. They have started their yard education and were easy to work with. These heifers have been pretreated on 29.6.26 for tick with ICON injectable. Their brothers are in the same auction.
