Assessor Comments	Buyers, on offer is a high-quality line of 9 weaned Bridgewater Angus heifers sired by top AI and walking Angus bulls averaging in the top 10% for profitability ($A). All Heifers are either HBR or APR Registered with Angus Australia. The NBGen program is built on multi-trait excellence of calving ease, fast growth, carcass quality and maternal form and function. Their females are run commercially in sub par environments while under selection pressure of tight joining periods and confidence in these heifers on offer is very strong, a tough decision to sell them. These heifers went through a 10-day weaning program handled daily through yards and walked out with dogs until settled. Ideal future breeders to grow out and join to the bull of your choice. Heifers are sired by Hart Network, Pine View Vezina (the sire of last weeks top price Farrer bull that sod for $29,000), Tehama Patriarch, Landfall Pheasantry.
