Temperament

Yards	Crush	Paddock
Quiet: 28 head	Quiet: 27 head Slightly Stirry: 1 head	Temperament not assessed in Paddock

Quiet heifers, easy to handle and work through yards during assessment, these heifers were no problem to the stage you have to push them out of your way at times. Good weaning practices are a standout with these heifers. No Issues with this draft

Handled With	Horses , On foot , Vehicles
Assessor Comments	Quality, good growth and length and well developed for their age. A nice draft of heifers that would look good in the front paddock, theses heifers come from a line of large frame milking females that were selected on good maternal traits. These heifers ideally would be great as replacement breeders or terrific heifers to feed for Local trade markets. Nice clean coated heifers that are on the move, plenty of length and growth in these heifers. From tick free area so right to travel with no restrictions
