Temperament

Yards	Crush	Paddock
Quiet: 26 head	Docile: 24 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Very quiet draft of steers showed no problem during drafting or while assessment took place. Credit goes to the vendor with the weaning and handling that has been done. Credit to work with quality and calm cattle. No issues at all

Handled With	Horses , On foot , Vehicles
Assessor Comments	A nice deck of weaned steers that have been properly weaned and handled. As being only weaners these steers have grown well for their age, Bulls use have been sourced for growth & milk as have been with females purchased from stud sales. The vendor takes pride in her cattle and has success with growth rates with heavier steers in feedlot situations. These steers are ideally suited for the local trade feeder market or to grow out to heavier weights on crop. Ideally these steers have had a great start and will continue to develop and perform.
