Heifers showed quiet temperaments and were easy to handle in and the around the yards.

Handled With: Bikes

Notable Traits

	Traits
2 Head	Light pink eye scaring in one eye
1 Head	Missing brush off tail

Assessor Comments: An Excellent quality line of vendor Bred Angus x Angus weaned heifers. Heifers are bred from a large framed cow herd with Raff angus genetics and were sired by Raff and Dulverton Angus sires. Heifers present in great condition and are perfect articles to join as they would make great future breeders as they are lovely feminine types that exhibit softness and stretch. Heifers would be more than suitable for backgrounding as well to carry through to heavier weights for feeders or finish on grass or send straight to the feedlot now. A good size run of angus heifers to suit all end angus markets, grass fed and Anti Biotic free with declaration available. Heifers have had the extra bonus of having the Coopers Bovillis MH + IBR vaccine already. If your herd is depleted from the recent dry period don't miss these heifers to replenish your herd, the perfect replacements.
