No. of years on Texas bloodline

Breeding Comments

100%

10 years

These weaners are all sired by Texas Blood Angus Bulls. The cow herd has a strong Ben Nevis Blood influence.

Grazing Conditions

Running in small paddocks with access to DGG Pellets and hay.

Returned same

Burr/Seed in Coat

No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status

Health Treatments

The owner declares that the cattle have not been treated with HGP at any period of their lives

Vendor Comments

I am pleased with how these weaners are doing considering how dry it was earlier in the year.

Handled With	These steers worked through the yards pretty well. They all settled quickly after being weighed back with their mates. Bikes , Vehicles					
Notable Traits	Traits 3 Head Slighly Cloudy eye - not detrimental					
Assessor Comments	Full of Texas and Ben Nevis genetics - these steers are bred to perform. Really long bodied, with good bone, shape and growth for age. They were weaned early to ease the pressure on their mothers and have been on DDG Pellets and hay since early April. They present in fresh strong condition with clean healthy coats and really doing well. The breeding suggests that they will suit a wide range of markets - domestic through to heavy export. Ideal steers to go onto crop and turn into heavy feeder steers. Will suit grain or grass fattening. Given the opportunity these steers should explode. NB Vendor has 18 heifers (sisters) in same sale.
