| Handled With           | Steers were ok to handle but some did slightly stir up when put under pressure. Steers were handled in a set of yards that were to small for the amount of cattle which didn't help.<br>Bikes , On foot , Vehicles                                                                                                                                                                                                        |      |                                                                                             |
| Assessor Comments      | Great opportunity to secure some well bred angus steers. These steers are the tops of the drop weighing 300-363 at assessment. Steers are Twynam, Te Mania & Yamba blood. Bred out of some top quality large matrons 650kg plus. These steers would suit to be grown onto feeder/kill weights. A small tail was removed at assessment. Please see vendors line of heifers in same sale. Any questions please call myself. |      |                                                                                             |
