Assessor Comments	A very good line of Murray Grey & Murray Grey/Angus X steers that could be finished as trade steers or taken on to grow out to export weights. These steers are well grown and have great growth for age. The Lubke's have been breeding quality Murray Grey cattle for a long time and they have maintained a very strict criteria for growth, softness and temperament. The dams of these steers are very impressive line of powerful functional females. The bulls are selected from the very well reputed Woodburn Murray Grey stud in Tasmania. Retained Heifers are AI'd to high performance Stud Angus bulls, with the 7 in this group being by decorated Angus sire Knowla Superior S44. The temperament is excellent and the steers were a pleasure to assess. 20% tail drafted off at assessment. Grass fed only, Nil antibiotics Highly recommended.
