	Very quiet young steers. All bucket reared, extensively handled. Very quiet to deal with in the yards, push them around by hand. All led up the race well, bar the odd steer that turned around in the race. Quiet to walk amongst in the paddock for photos. Quiet, well weaned steers that could be handled by a stock person of any experience.
Handled With	Bikes , Dogs , On foot , Vehicles

4 Head	Minor eye blemish (none greater than a 5c piece sized white dot)

Assessor Comments	An impressive line of young, well-grown steers, all bred by the vendor. These calves were bucket-reared for an extended period before being weaned onto pellets and transitioned onto a grain ration, providing them with an excellent start. They have continued to thrive, carrying outstanding weight for age while achieving an impressive average daily gain of 1.55 kg. They display the desirable Angus characteristics of strong muscle expression, excellent depth of body, and good length. They are well suited to finishing for either domestic or export markets and represent a quality purchasing opportunity.
