Assessor Comments	Watervalley offering 72 Angus x steers. Individually weighed from 320 kg to 400kg, presenting in fresh forward store condition. These steers are a very even line and drafted for colour, scurr or horn. These steers show very good frame and stretch over a good bone animal, and improving daily now with a good solid green pick. These steers are capable of fast compensatory weight gains. Weaned at different times from multiple mobs. Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases. Vendor has other lines in this sale, which may help with truck loads. Great opportunity to put together good straight line of vendor bred cattle. Highly recommend these cattle.
