Assessor Comments	All the work have been done on these cattle, they are well educated, handled and have been previously trucked from their home block south of Prairie and have been on agistment since the end of last year. Backed by their previous years drop taking out the Northern beef producers feedlot competition in 2023 these cattle have been bred to perform. The cattle exhibit good frame with adequate weight for age and are drafted in a neat weight range of only 83kgs (at assessment) for your convenience and ease of marketability down the track. The cattle show thickness, length and muscling ability and without a doubt will continue to grow out into high yielding steers with an outstanding carcass. These steers were a pleasure to assess - a credit to the vendors and their commitment to presenting their cattle. Having been sold numerous times on Auctions Plus Bogunda cattle have always satisfied buyers expectations
