Comment on Fat Score 1 Cattle	Cattle were weaned onto hay in yards for two days then trucked & went straight onto bunk feeders. The few lesser conditioned cattle are still very strong.
-------------------------------	--

Vendor Bred	Yes
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	The genetics of the herd is built mostly using Landfall Angus bulls for many years with some Clunie Range Bulls also used.

Grazing Conditions	Weaners have been bunk fed on a high fibre maintenance ration since 15th April Returned same
--------------------	---

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
-------------------	---

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Health Treatments	Vaccinated	15/04/2026	7 in One Second Dose

Vendor Comments	In normal years the cattle are weaned then grown out to supply the supermarket feeder cattle trade, but as the property was extremely dry they were weaned early onto a high fibre maintenance ration to keep them moving forward.

	These weaners haven't had a lot of training as they only spent a couple of days at the home yards when weaned before being transported to where they were put straight onto feedlot bunk pens. Some have a little bit of run in them but are easily blocked. Only a couple got a bit excited in the crush.		
Handled With	Bikes , Horses		
Assessor Comments	A golden opportunity has presented itself for you to purchase these cracking weaner steers as the very dry conditions has forced an early sale on these young gun angus sired steers. The majority of the mob oozing softness; showing good depth & width of body, perfectly suited for the Angus beef programs! These are quality cattle ideal to background for trade weight feeders or grow out for the lucrative Angus feeder market!. They have been weaned into bunk feeding pens on a high fibre maintenance ration so they will know how to adapt quickly to feedlot conditions on entry and put their heads straight down and tuck in! Your ahead of the game straight away when the lead up work has been done! * Please note there is a few in the mob with slight blemish in one eye; but not detrimental * Please also note there is also signs of worm in the mob and would recommend a drench when they get to their new home..
