Handled With	Bikes , Dogs , Horses , Vehicles			
Notable Traits	Traits 1 Head Moderate blue eye x one eye 3 Head Slight blue eye in one eye			
Assessor Comments	A mostly good to very good quality line of Angus & Angus x heifers. With medium to large frame these heifers suit to take directly onto feed and then finish for a range of high quality slaughter markets. They have not been fed grain and would be eligible for pasture fed markets. All heifers are 100% LT. The top 60% would also suit to take and join and would make good quality future breeders. Three heifers with slight blue eye spot in one eye and one with a moderate blue eye. The vendor is a certified and experienced preg tester and all heifers were vendor preg tested in Feb 2026 with these being NDP. There are no bulls on the property and they have not had access to bulls since then. The vendor has offered to re preg test them prior to delivery if required. Please note these heifers are in a tick free area and are free to travel into southern QLD and interstate.
