Cattle flow well throughout home yards with ease. A percentage become agitated whilst being weighed but quickly settled once release back into a larger yard. Whilst photos and videos were taken with minor pressure applied a small percentage of steers brake away from mob but quickly settle once all pressure is taken away.

Assessor Comments	Buyers A Quality run of the Terrica Station Angus weaned Steers. Steers have been weaned and have already hit the ground running. Steers have plenty of quality breeding behind them in including Speriby North, Inglebrae Angus Bloodlines. Steers have had all the hard work done including Rhino guard, Bovi Shield, 5 in 1, drenched and are ready to go straight out to the paddock of your choice. Cattle would be ideal to grow on to future domestic feeder cattle or heavier export markets. Cattle have had access to quality hay and XLR8 pellets and showing great daily weight gains.(Please note Vendor has multiple lots in the same sale.)
