Assessor Comments	A line of steers that have experienced a tough late summer & autumn period. Recent rains have started a green pick but the season has been a challenge hence the weigh for age of these steers. Bred on the vendors Bingara property they came to Tighvonie for fattening as is the usual practice. The vendor usually fattens these steers on out to heavy export slaughter weights. The property has been sold so the opportunity presents to purchase his line of steers to grow out to heavy feeder or heavy slaughter weights. Grass fed & antibiotic free.
