Assessor Comments	A good quality line of Angus & Angus X Steers. Steers present in forward condition are of good frame. Steers were weaned back in November and have come through a tough summer. Steers have been containment fed for a month to top up to backgrounder/feeder weights. Buyers please note approximately 29 Steers have signs of ringworm. But majority of the hair is coming back through now. These Steers are by high indexing Moogenilla Angus Bulls and given the opportunity will grow into heavy feeders or Bullocks. Also to be noted the same vendor will offer 73 Heifers in the sale.
