	These steers showed a very quiet temperament in the yards and during assessment. They were properly yard weaned and yard trained at a young age. Very well handled steers.			
Handled With	Bikes , Vehicles			
Assessor Comments	A fantastic line of vendor bred top of the drop steers. Presenting in predominantly fresh forward condition. Steers have been running on crop and have achieved an average of 1.2kg ADG over the past 31 days. They are an Aug/Sept 25 drop from a large frame cow herd. Vendor has been purchasing bulls from Thompsons Angus for the past 5 years with an emphasis on carcass quality, growth & IMF. This line are really starting to show their depth of body and carcass in the hindquarters. Quiet temperament and well yard trained these steers have the ability to finish either on grass or on feed. Highly recommended.
