	Some of the Heifers stirred up under pressure while being assessed but soon settled as soon as the pressure was off them as you can refer to the videos.		
Handled With	Dogs , Vehicles		
Assessor Comments	A regretful sale of 2 decks of vendor bred Angus Heifers Aug/Sep 2023 drop. These heifers have the Rennylea Angus blood running through them. The only reason these heifers are being sold is due to a bull break down during joining which resulted in a bad preg test result. They were preg tested empty on 6th of March Heifers have all received a prostaglandin (PG) on the day of assessment to ensure these heifers are empty a percentage of heifers were mouthed which were 2-4 teeth. They present in forward condition and would be finished in short time, there is no doubt these cattle will go on to perform on grass or in the feedlot presenting in great health with no faults found and all the boxes are ticked.		
Assessor	Hayden Hanratty (Level 1 Accredited)
