Assessor Comments

A quality line of 16 vendor-bred Angus heifers, offered as the complete February–March 2025 drop. These heifers are the result of a breeding program built on 15 years of proven Murdeduke Angus genetics, with a strong focus on fertility, growth, structure and temperament. They present with excellent frame, softness and depth, and are an even, well-grown line showing plenty of future potential. Suitable to retain as replacement breeders or grow out to feeder weights, these heifers offer buyers a genuine opportunity to secure females from a consistent, long-established breeding program.
