Assessor Comments	An good line of 10 vendor-bred Speckle Park backgrounder heifers presenting in strong forward-store condition. Exhibiting good breed purity, structural soundness, and performance potential, these unjoined heifers display an even weight range averaging 294.1kg. They possess a clean health background, being strictly pasture-raised on a restricted plane of nutrition, which leaves them physically well-primed to capitalise on compensatory growth when introduced to higher-value feed. Fully up-to-date with Dectomax and MarksMin treatments, they have an exemplary temperament, scoring completely quiet in both the yards and crush while handling easily on foot, bikes, or vehicles. They are strong, highly manageable, and fit to travel, with notable minor traits limited to one heifer with light warts and another with an old, healed pinkeye scar. The vendor also has 11 steers on offer in the same sale.
