	Steers work well through yards although need steadying through gateways as with all western cattle handled in big mobs good stock handling technique needs to be used as cattle will move freely away from pressure . Some became agitated in crush or confined spaces but settled once returned to mob.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot		

Assessor Comments	Buyers a good line of store condition USDA, NOP Organic, GAP certified steers. Steers were purchased as light weight weaners in June 2025 from Hale River Cattle Co and have performed well since getting a break in the season in January. Ideally suited to take through to the lucrative Organic Slaughter Market as they present in store condition and predominantly have the frame to get to heavier weights. Please note several showing old fly rub marks on neck and two with old blight scarring in one eye. Vendor has 3 lots of brothers this sale.
