Comment on Fat Score 1 Cattle: Most of these are score 1's but certainly fit to travel any required distances.

| | |
|---|---|
| Vendor Bred | Yes |
| Stock History | Breeder herd consists mainly of Shorthorn and Hereford cows and their crosses. There are also a few Brahman cross, Charbray and odd Brangus cow. All weaners are by Droughtmaster and Hereford bulls. |
| Lifetime Traceable | 100% of cattle in this lot are Lifetime Traceable |
| Breeding Comments | Droughtmaster bulls are used over the British bred cows and Hereford bulls are used over the Crossbred cows. |

| | |
|---|---|
| Grazing Conditions | Running in red Mulga country with a dry coverage of native grasses and a very light cover of winter herbages from recent rainfall. Cows were supplemented with lick whilst rearing their calves.<br>Returned to: Will remain in the yards on export quality oaten hay. |
| Burr/Seed in Coat | No Burr or Seed of weeds declared noxious observed in the coats at assessment |
| HGP Status | The owner declares that the cattle have not been treated with HGP at any period of their lives |

| Health Treatments | | | | |
|---|---|---|---|---|
| | Vaccinated | 05/01/2026 | 5 in 1 (branding) | First Dose |
| | Vaccinated | 17/02/2026 | 5 in 1 | Second Dose |

| | |
|---|---|
| Chemical Residue | Clear - No known history. |
| Vendor Comments | These are just a normal turnoff of steers. The seasonal conditions have dictated that they be sold. |

| Temperament | Yards | Crush | Paddock |
|---|---|---|---|
| | Quiet: 84 head | Quiet: 84 head | Temperament not assessed in Paddock |

Steers were excellent to handle in all areas of a good set of yards. These have certainly settled down very well since being weaned and there is hardly a peep coming out of them. Buyers are requested to allow sufficient time on arrival for steers to settle down before being shown the gate.

| | |
|---|---|
| Handled With | Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses |
| Assessor Comments | Buyers, a good quality line of weaner steers that have presented in store to forward store condition. These are best described as flat back types and will suit to take through to heavier feeder weights for either an export or domestic job. Steers have also had no grain or antibiotics at any stage so will fit any grassfed markets at a later date. They look to be in great health with no winter as yet and are very clean in the eye and muzzle. The decision by the vendor to tip plenty of lick into the cows during the dry seasonal conditions has paid dividends. It has allowed the cows to jam plenty of milk into their calves. It has showed through in the steers, they have not experienced a pinch at any stage. They exhibit plenty of softness, length and adequate weight for age. They are bred in red Mulga country so I would envisage these will certainly pack the kilos on when they get access to some heavier Brigalow black soil country especially on improved pastures or winter crop. These will not quite fit on two decks so a B-Double will be required to collect these steers. You will notice in the video that there are about 5 Hereford/Charbray or Hereford/Brahman cross types that are brindle in colour but still no heavy Bos Indicus content. |
| Assessor | **Bob Jakins (Level 1 Accredited)** |
| Delivery Period | 19/06/2026 to 21/06/2026 (3 days) |
| Delivery Point | "Spring Hill" yards located approx. 14kms S/E of Charleville on the Bollon road.<br>CHARLEVILLE QLD 4470<br>Lat: -26.4447196150926 / Lng: 146.330663066448 |
| Ticks | Cattle are not in a tick infested area. |
| NLIS Transfer | Vendor/Agent willing to Scan and Transfer cattle AT BUYER REQUEST at cost of **$2.00/head** |
| Agent Contact | **Jack Kidd**<br>Mobile 0460 967 095<br>Email jack.kidd@elders.com.au |
