Temperament

Yards	Crush	Paddock
Quiet: 36 head	Quiet: 34 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Heifers were quiet to handle and draft from other cattle in yards, they worked well through the steel panel yards and through to the crush for the assessment. Heifers walked away from the crush and settled easily back into the yards before photos were taken

Handled With	Bikes , Dogs , On foot
Assessor Comments	These weaner heifers have had a good start with the vaccinations and a start on weaner pellets they are on the move, Heifers would ideally be suited to background to feed for local trade market, easy cattle to handle through the yards and a fair percentage of Shorthorn cross heifers in the draft. There is 1 heifer that has blight scaring in both eyes, but sight is good, 2 other heifers with very slight old blight mark in eye, seems to have no problem. A nice even deck of heifers to take on either as paddock heifers or lock up on feed for local trade . Handled, had a good start and ready to go. Only being sold as vendors are working away a lot and changing property plans
