Comment on Fat Score 1 Cattle: All are score 1's and are fit to travel any distances without any problems.

Vendor Bred	Yes
Stock History	Bred out of a good quality herd of Red Angus females.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Breeding Comments	All by registered Red Angus bulls purchased ex: Anama (SA). The genetic gain from the introduction of these sires has been very beneficial to this herd.
Grazing Conditions	Bred in traprock country and currently has had a very dry summer/autumn. There was 50mm received 2 weeks ago so there is a very light coverage of clover coming through. Still in the weaning process and being fed good quality hay in the yards. Returned to: Will be held in holding paddocks on mainly dry grass and supplemented with hay.
Burr/Seed in Coat	Noogoora burr on the head, in the coat and tail brush on most steers.
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Health Treatments	Vaccinated 06/02/2025 5 in 1 (branding) First Dose

Chemical Residue	Clear - No known history
Vendor Comments	The annual turnoff of weaners. Past buyers have expressed considerable satisfaction with the performance of these cattle.

Temperament

Yards	Crush	Paddock
Quiet: 102 head	Quiet: 102 head	Temperament not assessed in Paddock

These have quietened down very well since weaning commenced with all the bellowing for the cows almost gone. They all handled very easily at assessment through the crush and in the race and probably the quietest crop of weaners I have assessed at Warroo. They had never been through the race prior to assessment, they behaved like they had been up there numerous times. Very quiet out in the bigger yards for photos and video. They do respond well to bikes and dogs in the paddock.

Handled With: Bikes , Dogs

Notable Traits

	Traits
2 Head	Minor blue dot in one eye (see photos)

Assessor Comments	Buyers, a line of Red Angus steers that come with a very good reputation and have attracted repeat buyers who have commented that these produce above average performance. Buyers should be aware these have had no grain or antibiotics at any stage of their life and will suit any grassfed orders and a declaration will be available if requested. These will suit restockers to grow out and background for domestic or export feeder markets. The hard work of breeding and weaning them has been done. Steers are very clean in the muzzle with no nasal discharge that is sometimes prevalent in weaners at this time of year indicating good health. These steers have definitely not suffered any setback at any stage of their life so they really should hit the ground running. These are bred on lighter country, history would suggest they will really hit their straps if they are exposed to crop or winter herbage on heavier improved country. They are also extremely quiet steers. There is also 117 in the heifer draft being offered in the same sale.
Assessor	**Bob Jakins (Level 1 Accredited)** Phone: 0419 788 366
Delivery Period	23/06/2026 to 23/06/2026 (1 day)
