Comment on Fat Score 1 Cattle	All are score 1's and are fit to travel any distances without any problems.		
Vendor Bred	Yes		
Stock History	Bred out of a good quality herd of Red Angus females.		
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable		
Breeding Comments	All by registered Red Angus bulls purchased ex: Anama (SA). The genetic gain from the introduction of these sires has been very beneficial to this herd.		
Grazing Conditions	Bred in traprock country and currently has had a very dry summer/autumn. There was 50mm received 2 weeks ago so there is a very light coverage of clover coming through. Still in the weaning process and being fed good quality hay in the yards. Returned to: Will be held in holding paddocks on mainly dry grass and supplemented with hay.		
Burr/Seed in Coat	Noogoora burr on the head, in the coat and tail brush on most steers.		
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Health Treatments	Vaccinated	06/02/2025	5 in 1 (branding) First Dose

Chemical Residue	Clear - No known history		
Vendor Comments	The annual turnoff of weaners. Past buyers have expressed considerable satisfaction with the performance of these cattle.		
Joining Details	Not Station Mated		
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.		
Temperament	Yards	Crush	Paddock
	Quiet: 117 head	Quiet: 117 head	Temperament not assessed in Paddock
Handled With	These have quietened down very well since weaning commenced with all the bellowing for the cows almost gone. They all handled very easily at assessment through the crush and in the race and probably the quietest crop of weaners I have assessed at Warroo. They had never been through the race prior to assessment, they behaved like they had been up there numerous times. Very quiet out in the bigger yards for photos and video. They do respond well to bikes and dogs in the paddock. Bikes , Dogs		
Notable Traits	Traits		
	4 Head Minor blue dot in one eye (see photos)		
Assessor Comments	Buyers, a line of Red Angus heifers that come with a very good reputation and have attracted repeat buyers who have commented that these produce above average performance. Buyers should be aware these have had no grain or antibiotics at any stage of their life and will suit any grassfed orders and a declaration will be available if requested. These will suit restockers to grow out and background for domestic or export feeder markets. The hard work of breeding and weaning them has been done. These would also be suitable to retain to enter a breeding program once they have grown out and reached maturity. Heifers are very clean in the muzzle with no nasal discharge that is sometimes prevalent in weaners at this time of year indicating good health. These heifers have definitely not suffered any setback at any stage of their life so they really should hit the ground running. These are bred on lighter country, history would suggest they will really hit their straps if they are exposed to crop or winter herbage on heavier improved country. They are also extremely quiet heifers. There is also 102 in the steer draft being offered in the same sale.		
Assessor	Bob Jakins (Level 1 Accredited) Phone: 0419 788 366		
Delivery Period	23/06/2026 to 23/06/2026 (1 day)
