Joining Details	Not Station Mated		
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.		
Temperament	Yards	Crush	Paddock
	Quiet: 88 head Slightly Stirry: 5 head	Quiet: 83 head Slightly Stirry: 10 head	Temperament not assessed in Paddock
	Cattle are well handled and trained throughout the yards. Typical of young cattle, some turing in a wide race, and if singled out may tend to stir but when released back to the mob are very quick to settle. While in larger yard all together are very quiet. A pleasure to handle.		
Handled With	Dogs , Horses , Vehicles		
Assessor Comments	93 **EU** Quality Swanbrook Angus Blood Heifers, that are weaned,well handled and on the move forwewards. These quality Heifers are only being offered to market due to being surplus to requirements in the current seasonal conditions, and would usually be retained as breeders. These Heifers are jam packed with 100% Swanbrook Angus genetics (16 Years), and are bred to exhibit resilience and doing ability as the cattle are managed in a rotational grazing system along side sheep. The Heifers would be an assest to any operation, and will not dissapoint in any discipline chosen for their future. Given the correct opportunity, they are ready to excell forward on your farm.
