	Yards		Crush		Paddock	
	Docile: 23 head		Docile: 23 head		Quiet: 23 head	
	Great to handle in the yards and moving through the assessment all cattle were individually weighed and showed no signs of agitation. The owner is yard weaning on property. Steers were calm and moved through the race and crush with ease.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	A terrific opportunity to secure a small, high-quality line of 23 Angus steer weaners from C & J Miller, presenting in store condition with excellent growth, shape, and overall balance. These steers are a genuine reflection of a well-managed, pasture-based system, with the vendors consistently producing cattle that perform across a range of operations. They display good frame, softness, and length, super quite and are an even, tidy line that will suit buyers chasing quality and predictability. Genetically, these steers are backed by Ardrossan Angus bloodlines, widely recognised for their performance, fertility, and carcase traits. Cattle from this program are noted local performers and have a strong track record in both backgrounding systems and feedlot operations, often finishing at heavier weights and meeting market specifications with ease. All steers are grass fed only and antibiotic free, making them well suited to programs targeting premium or natural market spec					
Assessor	Justin Costello (Level 1 Accredited) Phone: 0419 007 925
