	Very quiet young steers. All bucket reared, extensively handled. Very quiet to deal with in the yards, push them around by hand. All led up the race well, bar the odd steer that turned around in the race. Quiet to walk amongst in the large yards for photos. Quiet, well weaned steers that could be handled by a stock person of any experience.		
Handled With	Bikes , Dogs , On foot , Vehicles		

Notable Traits		
		Traits
	4 Head	Minor eye blemish (none greater than a 5c piece sized white dot)
	3 Head	Small amount of healing ringworm

Assessor Comments	Quality line of young, well started steers. All bred by the vendor, bucket reared for an extended period, weaned on to pellets early, then started on a grain ration. Marching ahead and showing excellent weight for age. These Calves are throwing well to the attributes of the Angus, with excellent shape, very good depth or body and good length. An ideal line of steers to continue on a feed ration and target a domestic or export market. Buyers please Note. Vendor has another lot of steers in the same sale from a different property, as well as 3 lots of heifers (1 from this property, 2 from another property)
