Temperament not assessed in

Cattle displayed excellent temperament during assessment. All calves flowed through the yards smoothly with minimal disturbance. The odd calf tried to turn in the race but other than that they are quiet and easy to handle making them suitable to all experience levels.

Assessor Comments

A top quality line of 6-7 month old Angus x Friesian steer calves, currently on a grain fed diet and exhibiting outstanding weight-for-age growth. With an extremely positive market outlook and recent rainfall providing excellent seasonal conditions, these steers present an outstanding opportunity for ongoing feeding programs. Buyers please Note. Vendor has another lot of steers in the same sale as well as 3 lots of heifers (2 from this property, 1 from another property).
